ChatGPT Client

User Manual

Introduction

Welcome to the ChatGPT Client! This application allows you to communicate with the ChatGPT AI right from your desktop. Whether you need help with writing, coding, or general questions, ChatGPtWpfApp is here to assist you.

System Requirements

Operating System: Windows 11 (64-bit)

.NET Version: .NET 8.0

RAM: Minimum 4 GB

Disk Space: Minimum 100 MB

Installation

Download the Installer:

Visit the Hyperlink or use the direct download link provided by the developer.

Run the Installer:

Locate the downloaded installer file and double-click to run it.

Follow the On-Screen Instructions:

Accept the terms and conditions.

Choose the installation directory.

Click "Install".

Finish Installation:

Once the installation is complete, click "Finish".

Launching the Application

Find the ChatGPtWpfApp shortcut on your desktop or search for "ChatGPtWpfApp" in the start menu and click to launch.

User Interface Overview

Main Window

Title Bar: Displays the name of the application.

Menu Bar: Contains options like File, Edit, Settings, and Help.

Chat Area: The main area where chats are displayed.

Input Box: Where you type your messages.

Send Button: Sends your typed message.

Using ChatGPtWpfApp

Starting a New Chat

Open ChatGPtWpfApp.

Click on "New Chat" in the menu bar or a designated button in the interface.

A new chat window/tab will appear where you can start interacting.

Sending Messages

Type your message in the input box at the bottom of the chat area.

Press Enter or click the Send Button to send your message.

Wait for the AI response to appear in the chat area.

Viewing Chat History

All your messages and AI responses are displayed in the chat area. Scroll up to view previous messages.

Troubleshooting

Common Issues

Application Won't Launch:

Ensure your system meets the minimum requirements.

Try reinstalling the application.

No Response from AI:

Check your internet connection.

Ensure the ChatGPT service is active and not undergoing maintenance.

UI Issues:

Try restarting the application.

Ensure your system display settings match the recommended settings.

If you encounter issues not listed here, please contact support.
